

## Q Reading and Writing 2 Unit 6 Test

Name: \_\_\_\_\_

Date: \_\_\_\_\_

### Digital Dining

**1** At Restaurant Z, we are known as a cool, trendy place for people who want a very special experience. We are always looking for better ways to serve our customers and make their experience unique. Next month, we will make a change so that we can really stand out: touch-screen ordering, also known as “digital dining.” You need to know about this new technology.

**2** This is how it works: Each table will have its own tabletop computer monitor with a touch screen. Customers can view the menu on the monitor, including descriptions and photos. To start, the customer inserts her credit card and puts in her order by touching the screen. Then the program automatically makes suggestions for additional items to order, such as appetizers and drinks. When the customer is ready, she pushes a button to send the order directly to the computer in the kitchen. Won't that make your job as a server easier? All you have to do is bring the food to the table when it's ready! Finally, paying the bill is quick and easy because the customer can do it herself. This exciting new technology will improve our customers' dining experience and increase your tips!

**3** Now you may want to know how this change will affect you. Maybe you are afraid of losing your job. Let me assure you: you won't. In fact, you will be able to serve more customers every night! These high-tech computers not only look cool, they decrease the number of tasks you have to do. Hopefully, that means that you can serve more tables without feeling stressed!

### Choose the best response.

1. According to the text, what kind of place is Restaurant Z?
  - A. special
  - B. trendy
  - C. new
2. According to the text, what is “digital dining”?
